

# **St. John's Parish Retreat Weekend (PRW) is now open!**

Please read the tips below before registering as well as Kanuga's tips on their registration page which you will see once you click the button below.

## **Registration tips:**

- You will need to complete the registration for each individual in your party (including children). We suggest registering adult(s) first then add children. When registering individuals please select the occupancy for each individual. For instance, a husband and wife may want to share a room, so you would select "single adult, double occupancy" for both the husband and then again for the wife. You will see it all totaled up at the end and have a chance to edit if you make a mistake.
- If selecting adult double occupancy, you will be asked to provide a roommate preference.
  - If you have selected the Inn, please name the person(s) you want to in the same room such as your spouse, etc.
  - If you selected the cabin or mountain lodge, please list individuals and/or families you prefer to share with. Preferences are not guaranteed but will be honored if possible based on registration and housing availability.
  - You will not be asked for roommate preference when registering a young adult or a child but of course families will be housed together.
- If desired, you can use the same contact email for each person in your registration (you will get a confirmation email for each person when complete).
- You will be able to add all family members before proceeding to payment.
- You will need to select your lodging preference. Click the link below to see the types of housing that are available but keep in mind that preferences are not guaranteed but will be honored if possible based on registration and housing availability.
- Payment is online as part of registration process.
